### 1. Product Description

SykonaHaler is the turn key solution to our customers. SykonaHaler is blister strip-based MDPI. The device is in- vitro equivalent to the GSK discus device. The device contains an aluminium sealed blister strip with 60 filled cavities plus test pocket and one more unfilled pocket for proper alignment of the last dose. The parts are being manufactured at Mematec out of commercial high speed plastic molds. The Design is non-exclusive Version to all of our customers. In addition to the device, Mematec is going to offer as a turn key solution all needed machines from filling to assembly.

The device is already fully approved and delivered to international customers' by Mematec.

The device fulfils the requirements of ISO 13485.
